1. Aims

1.1 This policy aims to ensure that:

1.1.1 Pupils, staff and parents understand how our school will support pupils with medical conditions

1.1.2 Pupils with medical conditions are properly supported to allow them to access the same education as other pupils, including school trips and sporting activities

1.2 The governing board will implement this policy by:

1.2.1 Making sure sufficient staff are suitably trained

1.2.2 Making staff aware of pupil's condition, where appropriate

1.2.3 Making sure there are cover arrangements to ensure someone is always available to support pupils with medical conditions

1.2.4 Providing supply teachers with appropriate information about the policy and relevant pupils

1.2.5 Developing and monitoring individual healthcare plans (IHPs)

1.2.6 The named person with responsibility for implementing this policy is Joanne Hill.

2. Legislation and statutory responsibilities

2.1 This policy meets the requirements under [Section 100 of the Children and Families Act 2014](#), which places a duty on governing boards to make arrangements for supporting pupils at their school with medical conditions.

2.2 It is also based on the Department for Education's statutory guidance: [Supporting pupils at school with medical conditions](#).

2.3 This policy also complies with our funding agreement and articles of association.

3. Roles and responsibilities

3.1 The governing board

3.1.1 The governing board has ultimate responsibility to make arrangements to support pupils with medical conditions. The governing board will ensure that sufficient staff have received suitable training and are competent before they are responsible for supporting children with medical conditions.

3.2 The Principal will:

3.2.1 Make sure all staff are aware of this policy and understand their role in its implementation

3.2.2 Ensure that there is a sufficient number of trained staff available to implement this policy and deliver against all individual healthcare plans (IHPs), including in contingency and emergency situations

3.2.3 Take overall responsibility for the development of IHPs

3.2.4 Make sure that school staff are appropriately insured and aware that they are insured to support pupils in this way

3.2.5 Contact the school nursing service in the case of any pupil who has a medical condition that may require support at school, but who has not yet been brought to the attention of the school nurse

3.2.6 Ensure that systems are in place for obtaining information about a child's medical needs and that this information is kept up to date

3.3 Staff

3.1 Supporting pupils with medical conditions during school hours is not the sole responsibility of one person. Any member of staff may be asked to provide support to pupils with medical conditions, although they will not be required to do so. This includes the administration of medicines.

3.2 Those staff who take on the responsibility to support pupils with medical conditions will receive sufficient and suitable training, and will achieve the necessary level of competency before doing so.

3.3 Teachers will take into account the needs of pupils with medical conditions that they teach. All staff will know what to do and respond accordingly when they become aware that a pupil with a medical condition needs help.

3.4 Parents and carers

Parents and carers will:

- 3.4.1 Provide the school with sufficient and up-to-date information about their child's medical needs
- 3.4.2 Be involved in the development and review of their child's IHP and may be involved in its drafting
- 3.4.3 Carry out any action they have agreed to as part of the implementation of the IHP e.g. provide medicines and equipment

3.5 Pupils

3.5.1 Pupils with medical conditions will often be best placed to provide information about how their condition affects them. Pupils should be fully involved in discussions about their medical support needs and contribute as much as possible to the development of their IHPs. They are also expected to comply with their IHPs.

3.6 School nurses and other healthcare professionals

3.6.1 Our school nursing service will notify the school when a pupil has been identified as having a medical condition that will require support in school. This will be before the pupil starts school, wherever possible.

3.6.2 Healthcare professionals, such as GPs and paediatricians, will liaise with the schools nurses and notify them of any pupils identified as having a medical condition.

4. Equal opportunities

4.1 Our school is clear about the need to actively support pupils with medical conditions to participate in school trips and visits, or in sporting activities, and not prevent them from doing so.

4.2 The school will consider what reasonable adjustments need to be made to enable these pupils to participate fully and safely on school trips, visits and sporting activities.

4.3 Risk assessments will be carried out so that planning arrangements take account of any steps needed to ensure that pupils with medical conditions are included. In doing so, pupils, their parents and any relevant healthcare professionals will be consulted.

5. Being notified that a child has a medical condition

5.1 When the school is notified that a pupil has a medical condition, the process outlined below will be followed to decide whether the pupil requires an IHP.

5.2 The school will make every effort to ensure that arrangements are put into place within 2 weeks, or by the beginning of the relevant term for pupils who are new to our school.

6. Individual healthcare plans

6.1 The Principal has overall responsibility for the development of IHPs for pupils with medical conditions. This has been delegated to Joanne Hill.

6.2 Plans will be reviewed at least annually, or earlier if there is evidence that the pupil's needs have changed.

6.3 Plans will be developed with the pupil's best interests in mind and will set out:

6.3.1 What needs to be done

6.3.2 When

6.3.3 By whom

6.4 Not all pupils with a medical condition will require an IHP. It will be agreed with a healthcare professional and the parents when an IHP would be inappropriate or disproportionate. This will be based on evidence. If there is not a consensus, the Principal will make the final decision.

6.5 Plans will be drawn up in partnership with the school, parents and a relevant healthcare professional, such as the school nurse, specialist or paediatrician, who can best advise on the pupil's specific needs. The pupil will be involved wherever appropriate.

6.6 IHPs will be linked to, or become part of, any statement of special educational needs (SEN) or education, health and care (EHC) plan. If a pupil has SEN but does not have a statement or EHC plan, the SEN will be mentioned in the IHP.

6.7 The level of detail in the plan will depend on the complexity of the child's condition and how much support is needed. The governing board and the Principal, will consider the following when deciding what information to record on IHPs:

- 6.7.1 The medical condition, its triggers, signs, symptoms and treatments
- 6.7.2 The pupil's resulting needs, including medication (dose, side effects and storage) and other treatments, time, facilities, equipment, testing, access to food and drink where this is used to manage their condition, dietary requirements and environmental issues, e.g. crowded corridors, travel time between lessons
- 6.7.3 Specific support for the pupil's educational, social and emotional needs. For example, how absences will be managed, requirements for extra time to complete exams, use of rest periods or additional support in catching up with lessons, counselling sessions
- 6.7.4 The level of support needed, including in emergencies. If a pupil is self-managing their medication, this will be clearly stated with appropriate arrangements for monitoring
- 6.7.5 Who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support for the pupil's medical condition from a healthcare professional, and cover arrangements for when they are unavailable
- 6.7.6 Who in the school needs to be aware of the pupil's condition and the support required
- 6.7.7 Arrangements for written permission from parents and the Principal for medication to be administered by a member of staff, or self-administered by the pupil during school hours
- 6.7.8 Separate arrangements or procedures required for school trips or other school activities outside of the normal school timetable that will ensure the pupil can participate, e.g. risk assessments
- 6.7.9 Where confidentiality issues are raised by the parent/pupil, the designated individuals to be entrusted with information about the pupil's condition
- 6.7.10 What to do in an emergency, including who to contact, and contingency arrangements

7. Managing medicines

7.1 Prescription and non-prescription medicines will only be administered at school:

- 7.1.1 When it would be detrimental to the pupil's health or school attendance not to do so **and**
- 7.1.2 Where we have parents' verbal or written consent
- 7.1.3 Where possible, it is preferable for medicines to be prescribed in frequencies that allow the pupil to take them outside of college hours.
- 7.1.4 If this is not possible, prior to staff members administering any medication, the parents/carers of the child must complete and sign a parental agreement for a college to administer medicine form.

7.2 The only exception to this is where the medicine has been prescribed to the pupil without the knowledge of the parents.

7.3 Pupils under 16 will not be given medicine containing aspirin unless prescribed by a doctor.

7.4 Anyone giving a pupil any medication (for example, for pain relief) will first check maximum dosages and when the previous dosage was taken. Parents will always be informed.

7.5 The school will only accept prescribed medicines that are:

7.5.1 In-date

7.5.2 Labelled

7.5.3 Provided in the original container, as dispensed by the pharmacist, and include instructions for administration, dosage and storage

7.6 The school will accept insulin that is inside an insulin pen or pump rather than its original container, but it must be in date.

7.7 All medicines will be stored safely. Pupils will be informed about where their medicines are at all times and be able to access them immediately. Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenaline pens will always be readily available to pupils and not locked away.

7.8 Medicines will be returned to parents to arrange for safe disposal when no longer required.

7.9 Controlled drugs

7.9.1 [Controlled drugs](#) are prescription medicines that are controlled under the [Misuse of Drugs Regulations 2001](#) and subsequent amendments, such as morphine or methadone.

7.9.2 A pupil who has been prescribed a controlled drug may have it in their possession if they are competent to do so, but they must not pass it to another pupil to use. All other controlled drugs are kept in a secure cupboard in the school office and only named staff have access.

7.9.3 Controlled drugs will be easily accessible in an emergency and a record of any doses used and the amount held will be kept.

8. Pupils managing their own needs

8.1 Pupils who are competent will be encouraged to take responsibility for managing their own medicines and procedures. This will be discussed with parents and it will be reflected in their IHPs.

8.2 Pupils will be allowed to carry their own medicines and relevant devices wherever possible. Staff will not force a pupil to take a medicine or carry out a necessary procedure if they refuse, but will follow the procedure agreed in the IHP and inform parents so that an alternative option can be considered, if necessary.

9. Unacceptable practice

9.1 School staff should use their discretion and judge each case individually with reference to the pupil's IHP, but it is generally not acceptable to:

- 9.1.1 Prevent pupils from easily accessing their inhalers and medication, and administering their medication when and where necessary
- 9.1.2 Assume that every pupil with the same condition requires the same treatment
- 9.1.3 Ignore the views of the pupil or their parents
- 9.1.4 Ignore medical evidence or opinion (although this may be challenged)
- 9.1.5 Send children with medical conditions home frequently for reasons associated with their medical condition or prevent them from staying for normal school activities, including lunch, unless this is specified in their IHPs
- 9.1.6 If the pupil becomes ill, send them to the school office or medical room unaccompanied or with someone unsuitable
- 9.1.7 Penalise pupils for their attendance record if their absences are related to their medical condition, e.g. hospital appointments
- 9.1.8 Prevent pupils from drinking, eating or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively
- 9.1.9 Require parents, or otherwise make them feel obliged, to attend school to administer medication or provide medical support to their pupil, including with toileting issues. No parent should have to give up working because the school is failing to support their child's medical needs
- 9.1.10 Prevent pupils from participating, or create unnecessary barriers to pupils participating in any aspect of school life, including school trips, e.g. by requiring parents to accompany their child
- 9.1.11 Administer, or ask pupils to administer, medicine in school toilets

10. Emergency procedures

10.1 Staff will follow the school's normal emergency procedures (for example, calling 999). All pupils' IHPs will clearly set out what constitutes an emergency and will explain what to do.

10.2 If a pupil needs to be taken to hospital, staff will stay with the pupil until the parent arrives, or accompany the pupil to hospital by ambulance.

11. Training

11.1 Staff who are responsible for supporting pupils with medical needs will receive suitable and sufficient training to do so.

11.2 The training will be identified during the development or review of IHPs. Staff who provide support to pupils with medical conditions will be included in meetings where this is discussed.

11.3 The relevant healthcare professionals will lead on identifying the type and level of training required and will agree this with the Principal. Training will be kept up to date.

11.4 Training will:

11.4.1 Be sufficient to ensure that staff are competent and have confidence in their ability to support the pupils

11.4.2 Fulfil the requirements in the IHPs

11.4.3 Help staff to have an understanding of the specific medical conditions they are being asked to deal with, their implications and preventative measures

11.5 Healthcare professionals will provide confirmation of the proficiency of staff in a medical procedure, or in providing medication.

11.6 All staff will receive training so that they are aware of this policy and understand their role in implementing it, for example, with preventative and emergency measures so they can recognise and act quickly when a problem occurs. This will be provided for new staff during their induction.

12. Record keeping

12.1 The governing board will ensure that written records are kept of all medicine administered to pupils.

12.2 IHPs are kept in a readily accessible place which all staff are aware of.

13. Liability and indemnity

13.1 The governing board will ensure that the appropriate level of insurance is in place and appropriately reflects the school's level of risk.

13.2 The College is currently insured through Zurich and details about the level of cover is available from the policy schedule available from the Director of Finance and Resources.

14. Complaints

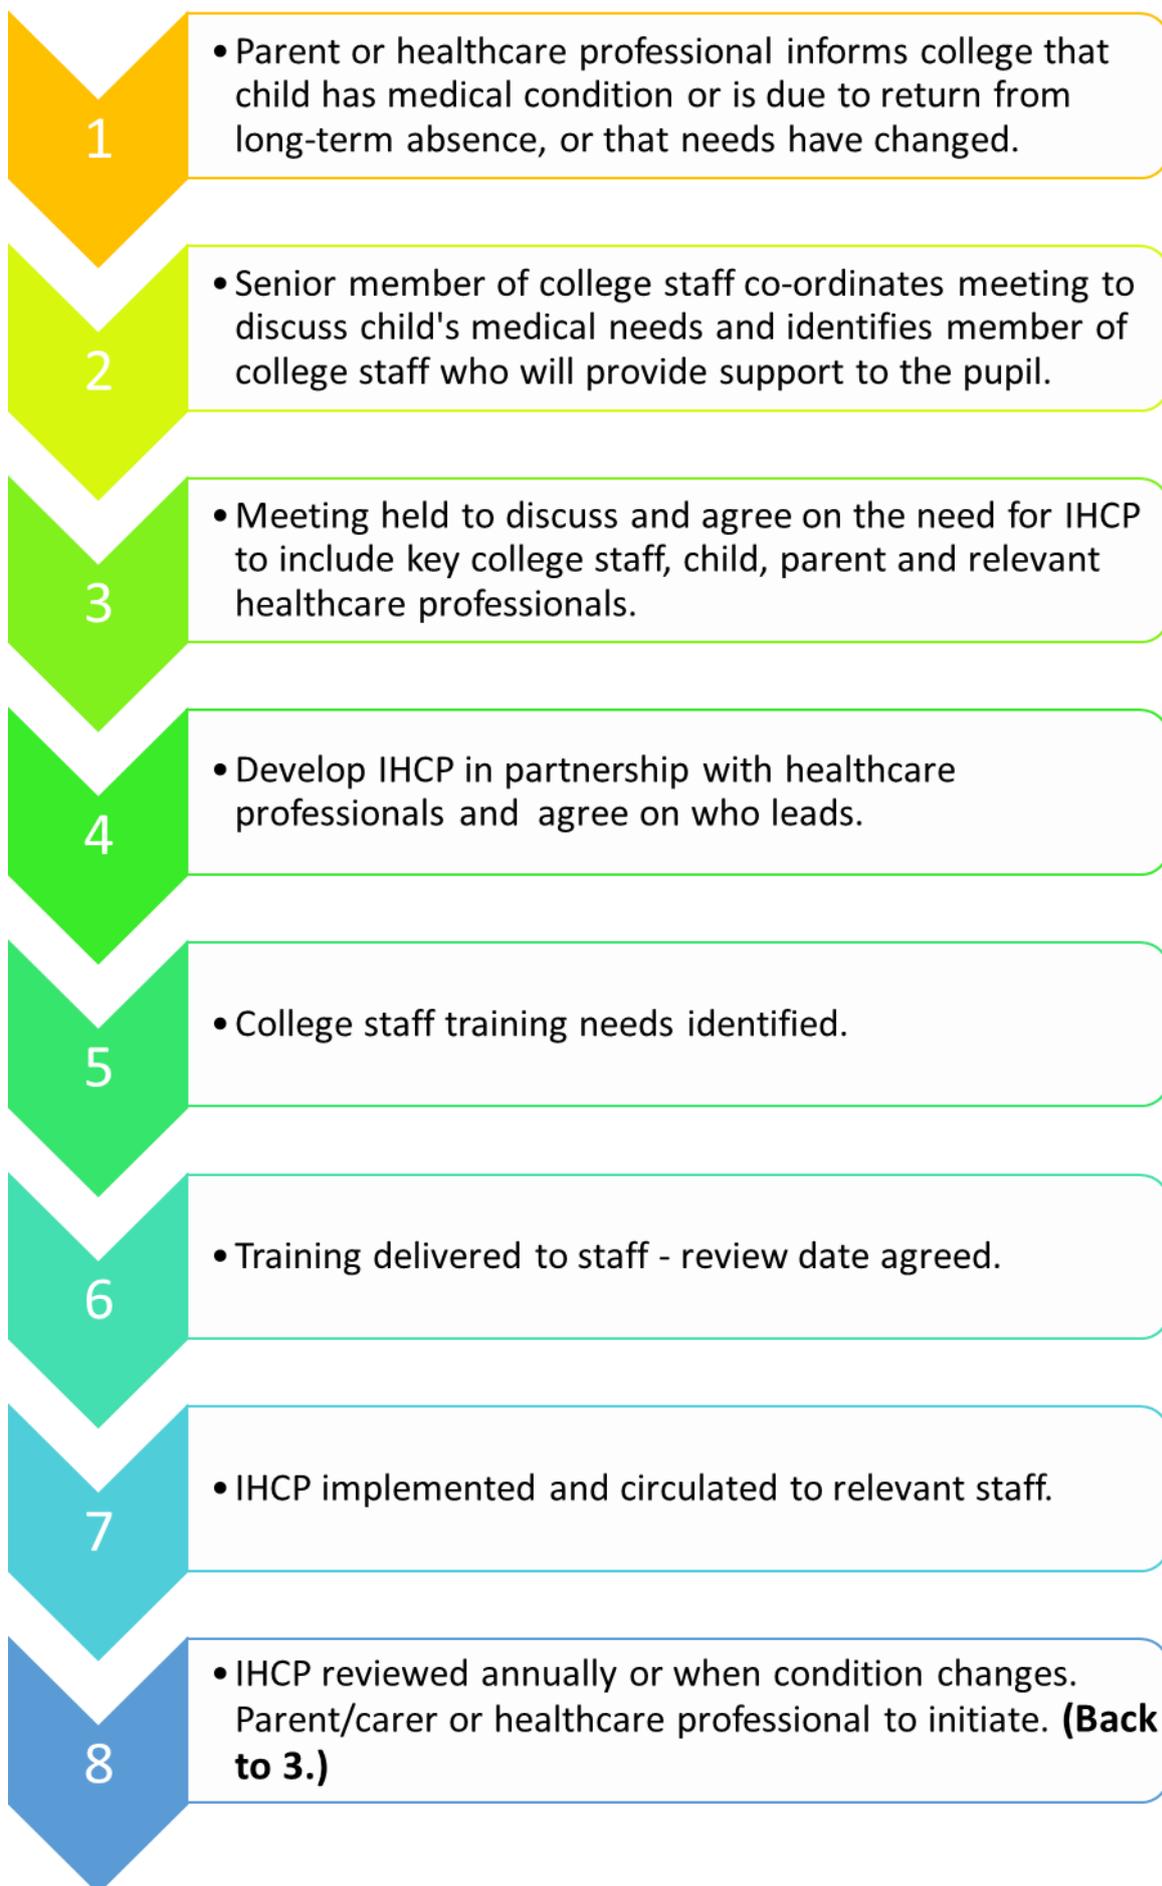

14.1 Stage 1 - Complaint heard by Staff Member/Complaints Officer

14.2 Stage 2 - Complaint heard by Principal or his nominated representative

14.3 Stage 3 – Complaint heard by Governing Bodies' Complaints Appeal Panel (CAP)
15. Monitoring arrangements

This policy will be reviewed and approved by the governing board every year.

Appendix 6 - Contacting emergency services

Request an ambulance - dial 999, ask for an ambulance and be ready with the information below.

Speak clearly and slowly and be ready to repeat information if asked.

1. Your telephone number – **01404 42283**
2. Your name.
3. Your location as follows: **Honiton Community College, School Lane, Honiton, Devon, EX14 1QT**
4. The exact location of the patient within the college setting.
5. The name of the child and a brief description of their symptoms.
6. Inform Ambulance Control of the best entrance to use and state that the crew will be met and taken to the patient.
7. Put a completed copy of this form by the phone.

Appendix 7 - Model letter inviting parents to contribute to individual healthcare plan development

Dear Parent,

RE: DEVELOPING AN INDIVIDUAL HEALTHCARE PLAN FOR YOUR CHILD

Thank you for informing us of your child's medical condition. I enclose a copy of the college's policy for supporting pupils at school with medical conditions for your information.

A central requirement of the policy is for an individual healthcare plan to be prepared, setting out what support each pupil needs and how this will be provided. Individual healthcare plans are developed in partnership with the college, parents/carers, pupils, and the relevant healthcare professional who can advise on your child's case. The aim is to ensure that we know how to support your child effectively and to provide clarity about what needs to be done, when and by whom. Although individual healthcare plans are likely to be helpful in the majority of cases, it is possible that not all children will require one. We will need to make judgements about how your child's medical condition impacts their ability to participate fully in college life, and the level of detail within plans will depend on the complexity of their condition and the degree of support needed.

A meeting to start the process of developing your child's individual health care plan has been scheduled for xx/xx/xx. I hope that this is convenient for you and would be grateful if you could confirm whether you are able to attend. The meeting will involve (add details of team). Please let us know if you would like us to invite another medical practitioner, healthcare professional or specialist and provide any other evidence you would like us to consider at the meeting as soon as possible.

If you are unable to attend, it would be helpful if you could complete the attached individual healthcare plan template and return it, together with any relevant evidence, for consideration at the meeting. I or add name of other staff lead would be happy for you contact me [them] by email or to speak by phone if this would be helpful.

Yours sincerely,

Mrs J Hill

Assistant Principal - Director of Additional Needs
